Medford, Oregon 97504

Fall 2002

## *Medford's Messenger*

Providing information to the public about the management of natural resources on public lands.

# **Medford's Messenger**

a publication of

## **Bureau of Land Management Medford District Office**

Fall 2002

Dear Public Land User:

The primary purpose of *Medford's Messenger* is to keep you informed of ongoing and proposed activities on the Medford District. It contains listings of projects, by resource area, that have been completed recently and identifies newly proposed projects. It is our desire to keep you informed about issues, activities, and opportunities we think are important to our publics. More importantly, we are seeking ideas and comments from those who may be affected by out multiple-use management programs.

This planning update has been organized to give you a brief description of activities occurring in several programs, as well as description of new projects being considered by the district. Additional information can be obtained from the people listed in the descriptions.

### **Medford District Timber Sale Program**

On September 26, 2002, the Medford District offered five timber sales and successfully sold four totaling approximately 25 million board feet. These sales were the final offerings of FY 2002.

In the past, the Messenger has had an estimated timber sale plan for the upcoming fiscal year. Because of the uncertainty of funding and because no final decision has been made as to whether or not salvage of this past summer's wildfires will be done during this fiscal year, we do not have a list of proposed sales for FY2003 at this time. As we progress into FY 2003, however, and future plans become clearer, we will publish the table of expected upcoming sales in the Messenger.

### **Medford District WEB Site**

Just a reminder to readers of what is available on the Medford District WEB site. Under the planning page you can find : Annual Program summaries, the current *Medford's Messenger*, Environmental Assessments, selected Watershed Analyses, and the Northwest Forest Plan.

The contact people are familiar with their projects and are able to answer questions and provide more details on the projects. They are interested in information you wish to share concerning any of the projects or project areas.

In order to keep printing costs down, if you no longer want to receive the Messenger please contact us and we will remove your name from the mailing list. For your convenience the Messenger is available on the Internet at [www.or.blm.gov/Medford/](http://www.or.blm.gov/Medford/)

Our practice is to make comments, including names and home addresses of respondents, available for public review. Unless you specifically request us to withhold your name and address, it will be made available to the public on request.

We would appreciate any comments or suggestions you may have regarding this Planning Update or how it could be improved to make it more useful to you.

Thank you for your interest in BLM's management of your Public Lands. If you have any questions on information in this Planning Update, stop by the office or call us at 541-618-2200.

Sincerely,

Ron Wenker  
District Manager
